Animations Tab - PowerPoint Notes

Animations Tab (English)

The **Animations** tab allows you to add visual effects to text, images, shapes, charts, and other elements on a slide. It includes entrance, emphasis, exit, and motion path effects.

1. Preview Group

- Preview
 - o Click to see how the selected animation appears on the slide.

Shortcut Key:

Alt + A + V

2. Animation Group

- Animation Gallery
 - o Choose from the following categories:
 - Entrance Effects: Appear, Fade, Fly In
 - Emphasis Effects: Spin, Grow/Shrink, Teeter
 - Exit Effects: Disappear, Fade, Fly Out
 - Motion Paths: Lines, Arcs, Turns, Custom Path

Step-by-step:

- 1. Select the object.
- 2. Click the desired animation from the gallery.
- 3. Use Preview to view.

Shortcut Key:

Alt + A + A: Opens Animation Gallery

3. Advanced Animation Group

Add Animation

 Adds another animation to the same object without replacing the existing one.

Animation Pane

- o Displays a timeline view of all applied animations.
- o You can reorder, delete, or customize timing here.

Trigger

o Start animation by clicking a specific object during presentation.

Animation Painter

o Copies animation effects from one object and pastes them on another.

Step-by-step (Animation Painter):

- 1. Select the animated object.
- 2. Click **Animation Painter**.
- 3. Click on the object to apply the animation.

Shortcut Keys:

- Alt + A + D: Add Animation
- Alt + A + P: Animation Pane
- Alt + A + G: Trigger
- Alt + A + C: Animation Painter

4. Timing Group

Start

- o On Click: Starts when clicked.
- o With Previous: Starts simultaneously with previous animation.
- o After Previous: Starts immediately after previous.

Duration

o Sets how long the animation runs.

Delay

o Adds wait time before animation begins.

Usage:

- 1. Select the object.
- 2. Click on Start and choose the mode.
- 3. Set duration and delay.

Shortcut Keys:

- Alt + A + T: Start
- Alt + A + U: Duration
- Alt + A + E: Delay

Animations Tab (Marathi)

Animations टॅबचा उपयोग स्लाईडवरील मजकूर, चित्र, आकृती, चार्ट यांसारख्या घटकांना ॲनिमेशन इफेक्ट्स देण्यासाठी होतो. हे सादरीकरण अधिक प्रभावी बनवते.

1. Preview ग्रुप

- Preview
 - निवडलेल्या ॲनिमेशनचा प्रिव्ह्यू पाहण्यासाठी.

शॉर्टकर की:

Alt + A + V

2. Animation ग्रुप

- Animation Gallery

- o **On Click**: क्लिक केल्यावर सुरू होते.
- o With Previous: आधीच्या ॲनिमेशनसोबत एकाच वेळी.
- o After Previous: आधीच्या नंतर आपोआप.

Duration

- ् ॲनिमेशन किती वेळ चालेल ते सेट करते.
- Delay
 - o सुरुवातीपूर्वीची थांबण्याची वेळ.

वापरण्याची पद्धतः

- 1. ऑब्जेक्ट निवडा.
- 2. Start पर्याय निवडा.
- 3. Duration व Delay सेट करा.

शॉर्टकर की:

- Alt + A + T
- Alt + A + U
- Alt + A + E

Fun Assignments

- 1. Create a slide with three shapes and apply different entrance animations to each.
- Add a second animation to an object using Add Animation and use Animation Pane to reorder.
- 3. Use **Trigger** to make text appear only when clicking a shape.
- 4. Copy an animation from one object and apply it to another using **Animation Painter**.
- Create a sequence of animations that starts with With Previous, followed by After Previous, and includes custom Duration and Delay times.
