## **Record Tab - PowerPoint Notes**

# Record Tab (English)

The **Record** tab in PowerPoint is designed to let you **record your presentation** with narrations, laser pointer, ink, and timings. It's especially useful for creating self-running or online presentations.

#### **1. Record Slide Show Group**

- Record (From Beginning / From Current Slide)
  - o Starts recording your presentation with options for audio, video, and ink.
  - Choose From Beginning to start from slide 1 or From Current Slide to start from a specific slide.

Shortcut Key: Alt + S + C + R

## Steps to use:

- Click Record.
- 4. Choose From Beginning or From Current Slide.
- 5. In the recording window:
  - Click the Record button to begin.
  - Use tools like laser pointer, pen, highlighter during recording.
  - Click Stop to end recording.
  - Click Replay to preview.
- 6. Click **Export** or **Save** as video if needed.

#### 2. Content Group

- Clear Recordings
  - o Removes previously recorded narrations, ink, and timings from:

- The current slide or
- The entire presentation.

#### Steps:

- 2. Click Clear Recordings dropdown.
- 3. Choose your desired option.
  - Play from Start
    - Plays the recorded presentation from the beginning.
    - o Includes narration, animations, ink, and timings.

**Shortcut Key:** F5 (or use Play option from Record tab)

- Play from Current Slide
  - o Plays from the current slide with all recorded features.

**Shortcut Key:** Shift + F5

## 3. Export Group

- Export to Video
  - o Saves your presentation as a video (MP4 format).
  - o Customize video resolution, include timings and narrations.

#### Steps:

- 3. Click Export to Video
- 4. Choose quality: 4K, Full HD, HD, or Standard.
- 5. Select if you want to use recorded timings/narrations.
- 6. Click Create Video
- 7. Save the file with a name and location.
